### SIZE

To ensure you don't choose the wrong size, take a garment of yours and measure it.

1. Lay it out on the bed, well stretched. Use a tape measure or ruler to measure its width, from armpit to armpit (see the diagram: ANCHO).
2. Now measure the height of the garment from top to bottom. (ALTO)
3. With this width and height information, refer to the size chart above to choose the correct size for this garment.
